Katharine -

Thank you for getting back with me as agreed. I will review this afternoon and get back with you Monday afternoon to schedule a follow-up discussion on any outstanding issues and next steps. Have a great weekend.

Cheers

Forrest B. John EPA-Region 6 Dallas, Texas (214) 665-8368 (214) 665-6689 (FAX)

Subject: Re: EPA contractor assistance for State of New Mexico Nutrient Framework Technical Support:

request clarifications to TD

Forrest-

Thanks so much for the statement of work. As a follow-up to the submissions we would appreciate additional clarifications from NM before meeting with or sending this to the contractor.

We are providing the annotated document back to you containing our comments/suggestions that we request you review and summarize/share with the state contact. Katie and I can be available to call into any meeting you schedule with NM to discuss our comments, if that would be helpful. We are also

available if you want to discuss our comments beforehand.

Once we are able to clarify the technical direction, our next step will be to hold with you a joint kickoff conference call/meeting with the state lead and TetraTech to allow them to review and respond with any questions, etc.

Would it be possible for you to help us address the attached comments early next week? Please let me know your earliest expected time frame, and also if you have any questions. We look forward to working with you to assist NM.
